

F.No. W-11020/8/2015/Water-I
Government of India
Ministry of Drinking Water and Sanitation

4th Floor, Paryavaran Bhawan
CGO Complex, Lodhi Road,
New Delhi-110003
Dated: 11.05.2016

To
The Principal Secretaries/Secretaries
In-charge, Rural Water Supply Department
All States/UTs

**Sub: Pre-monsoon preparedness for mitigation measures and quick & efficient
response to the impending South-West Monsoon**

Sir,

In pursuance of directives issued by National Disaster Management Authority regarding Impending South-West Monsoon from June to Sep., States/UTs have to take steps for preparedness and response in order to tackle the impending Flood and Cyclone situations in respect of maintaining Rural Water Supply. A list of States / UTs prone to Floods & Cyclone is enclosed.

States/UTs are required to prepare their own contingency plans for mitigation of such situations. States/UTs may utilize the 15% O&M funds already available with them under NRDWP. This fund can be utilized by States for water supply system affected by Floods/Cyclone. In case of disruption of Rural Water Supply due to Flood/Cyclone, Water supply through Water Tankers and other means may also be carried out using 10% Flexi funds under NRDWP.

In such a situation, States/UTs may like to depute JEs/other field staff from non-affected areas to affected areas for immediate help and restoration works. Please create a toll free number in the office of CE / Engineering-in-Chief and inform the number to all DCs, SEs, EEs and BDOs. This facility should be working on 24x7 basis. The situation may be reported to MDWS and Area Officer in the Ministry related to your State.

Yours sincerely

Encl.: As above

(Rajesh Kumar)
Director (Water)

Government of India
 NATIONAL DISASTER MANAGEMENT AUTHORITY

No.2-5/2008-PP

dated 13th April 2016

To,
 Shri Parmeswaran Iyer, IAS
 Secretary
 Ministry of Drinking Water and Sanitation,
 Paryavaran Bhawan, CGO Complex,
 Lodi Road, New Delhi-110003

Subject: Pre-monsoon preparedness for mitigation measures and quick and efficient response to the impending South- West Monsoon - reg.

Sir,

I am directed to state that with the onset of Monsoon in the last week of May or first week of June, Southwest (SW) Monsoon season prevails in India from June to September. Cyclones may occur in the months of May-June and October-December, with their primary peak in November and secondary peak in May. Around 70-90 percent of the annual total rainfall over different parts of India occurs in the SW monsoon season.

2. The list of States/ UT prone to Floods/ Cyclones is annexed. In view of impending monsoon season, pre-monsoon preparedness for mitigation measures and efficient response would result in saving precious lives and minimizing damage to property and infrastructure. It is requested to kindly direct the concerned to initiate necessary action for flood/cyclone management.

Your faithfully

Alice Kujur
 13/4/16
 (Alice Kujur)

Deputy Secretary to the Government of India

Encl: As above.

Annex
