Sub – Assessment Study of Impact and Sustainability of NGP

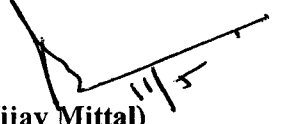

Dear Sir/s,

The Department of Drinking Water Supply is undertaking the above mentioned study on the NGP awarded GPs during 2005-2008. The main purpose of the study is to assess the impact of NGP on the pace of progress of sanitation availability and usage in the country under TSC and its related impacts on health, education, gender empowerment, social inclusion in rural areas on different user groups particularly the rural poor. This study will also assess the durability and sustainability of the provision and usage of sanitary facilities over time. The rationale of this evaluation study will be to provide important evidence on the NGP component of the TSC. The study will provide a national level report on assessment of impact of NGP.

A sampling methodology has been framed in consultation with the Adviser (Stat) of MoRD and UNICEF. In the proposed study 12 States will be surveyed by the agency selected by the DDWS. A sampling procedure is also mentioned below –

Category	State	No. of common districts	District allocation	No. of GPs in common districts		No. of GPs allocated*		House-holds to be surveyed (15 per GP)	
				2005-07	2008	per district	total	2005-07	2008
High	Kerala	13	4	228	548	6	24	360	360
	West Bengal	13	4	606	327	6	24	360	360
	Tripura	3	2	79	30	7	14	210	210
	Haryana	8	3	60	295	6	18	270	270
Average	Maharashtra	33	9	2367	4301	6	54	810	810
	Uttar Pradesh	54	15	528	688	6	90	1350	1350
	Himachal Pradesh	5	2	22	105	7	14	210	210
	Andhra Pradesh	17	5	152	639	6	30	450	450
Low	Rajasthan	8	3	23	91	6	18	270	270
	Bihar	7	2	44	94	7	14	210	210
	Chhattisgarh	5	2	102	140	7	14	210	210
	Karnataka	10	3	71	469	6	18	270	270
Total		176	54	4282	7726		332	4980	4980

You are requested to cooperate with the representatives of Centre for Media Studies, New Delhi to carry out the work in the selected Districts/GPs of your State. The name of the sample Districts/GPs from your State will be intimated shortly.
