

No.Q-14018/100(RFD)/2012/DWS (Stat.)
Ministry of Drinking Water & Sanitation
Government of India

9th Floor, Paryavaran Bhawan
CGO Complex, Lodi Road,
New Delhi – 110003

Dated; March 01, 2013

To,

The Chief Engineer,
Public Health Engineering Department
Government of Haryana

Sir,

Please refer to your letter No 2035-PHE/Plg. dated 08-02-2013 regarding IMIS on GOI website; The State of Haryana is communicated the following.

1. **RFD Ranking.** The Habitation target for fourth quarter and final RFD ranking is 950.
2. **Point No 2: Sustainability Structures:** The request of State for Multiple structures entry in Sustainability schemes is accepted. NIC is revising the reporting format and the revised format will allow entry of multiple structures against Sustainability Schemes.
3. **Point No 3: Expenditure wrongly reported:** State has booked the GOI share in State expenditure column and vice versa. NIC is revising the format by adding special provisions where the State can rebook the State expenditure in State column itself. However the amount booked in the Central column can't be decreased and hence State may adjust the same in the reporting of February 2013.
4. **Point No 4: Handing over of O&M to PRIs:** Request of State to create an option for entering data to account for the already commissioned schemes which are been handed over recently or is expected to handed over to PRIs is accepted. NIC is revising the concerned format to accord this request.

NIC division of Ministry will launch these revised entry formats mentioned above by 10/03/2013 and the State of Haryana is requested to contact the NIC division for technical support if needed.

(Sujoy Mojudar)
Director – Water
