D.O. No. 2/2/Secy (DWS)/2014

Dated : 13th June, 2014

Dear Alok,

Residents of villages along the Ganga River are found defecating at the riverside including areas close to towns/municipal limits. This is causing untold pollution to river Ganga which needs to be urgently checked. Also the quality of drinking water to the towns/villages which is being sourced from the river is getting polluted and spoilt.

I therefore request that urgent steps be taken as a special drive to provide individual household toilets as well as Community Sanitary Complexes in all villages (including those near towns and municipal limits) falling on both sides of river Ganga so that water of the river remains clean and pollution free and can be utilized as a good source for drinking water schemes.

Steps taken by your State in this regard may kindly be informed to us within 10-15 days. The number of individual and community toilets sanctioned and built in villages falling on both sides of Ganga may be regularly reported to this Ministry on the 1st and 16th of every month giving the name of village and numbers sanctioned/constructed.

With regards,

With warm regards

Yours sincerely,

(Pankaj Jain)
