Dated August 14, 2012

To,

The Chief Engineers
in charge of Rural Drinking Water Supply

Sub: Request for sharing photographs relevant to drinking water supply;

Sir,

Ministry of Drinking Water & Sanitation requires photos related to Rural Water Supply for making presentations and IEC materials on a regular basis. However the stock of photos with the Ministry is not adequate to fulfill such requirements. Similarly, the website of Ministry of Drinking Water & Sanitation also requires good quality photos for uploading in the Gallery as well as in other places. Hence I request the States to send quality photos (without compromising the resolution) either by email to **ddws_dds@nic.in** , **jaimonuthupchirayil@gmail.com** or by CD/DVD.

Yours Sincerely,

(Sujoy Mojumdar)
Director
